MONTHLY MINE PAYROLL NOW $164,000

Twelve Hundred Men at Work In Twelve Nevada Co. Mines

Twelve mines in the vicinity of Nevada City and Grass Valley are today employing 1200 men. These men are paid every two weeks, and the monthly payroll, very conservatively estimated at $4.25 per day per man for 30 days a month amounts to $164,052.

This does not take into account many smaller mining operations in gravel and quartz development that are going forward throughout the county. How much this amounts to per month, anyone as well as a newspaper writer, can guess.

But this is the biggest payroll this county has had in many a long day, and this PAY DAY SPECIAL EDITION of the Nevada City Nugget is issued to call attention to this strong revival in mining as demonstrated by the number of men employed, and illustrated in the table below.

A BIG INDUSTRY

From any point of view the North Star-Empire, Pennsylvania and Murchie group of mines, employing 775 men, is one of the big enterprises of California. Few corporations of any kind have a larger force working at this time.

The Idaho-Maryland, which has just declared a dividend, has a number of stock holders in this vicinity. Aside from the wages paid out, a considerable proportion of the dividend money goes into circulation in this county. Everybody benefits, not only the merchants, but all those who sell their service, and those who deal in the busy marts of trade: that means everybody.

HOGE DEVELOPMENT CO.

The Hoge Development company another of the producers of this section, in addition to its operation of the Hoge mine, is preparing to develop the Lava Cap. This company, as well as the Murchie, employs Nevada City miners almost exclusively. This city feels the immediate effect of the semi-monthly distribution of wages.

The Lava Cap soon will be in a position to begin development work, when it is expected to employ 25 men.

The Golden Center mine in Grass Valley has recently made an interesting strike. The miners were putting a "last shot" into a drift, in which, if nothing worth while showed up, work was to have been abandoned. The shot revealed a two foot ledge, richly mineralized and showing free gold.

The Bullion mine is being rehabilitated. A vrew of men are at work clearing the ground for a headframe, preparatory to installing a hoist.

Among the smaller properties, might be mentioned that of Remington Hill, which employed 12 men throughout the winter. As soon as posible the principal owner of this gravel mine, Frank Crampton, proposes to put a large crew at work sluicing the gravel. The properties belonging to this company have recently been expanded so that there are now 1700 acres in its holdings, most of which can be worked.

Lack of water at Camptonville, Relief Hill and at other localities where gravel mining predominates, and, in the higher sections, too much snow, are delaying resumption of work in gravel. At Relief Hill development work is going forward and as soon as water is available, hydraulicking will begin.

LARGE DEALS PENDING

Several large mining transactions are now in the course of negotiation. Some of these will be concluded and there will be further increases in the mine payroll of this section.

The table below naming mining properties, their location, the number of men employed, is the first to be compiled by any newspaper in recent years. From time to time, as the list of mines in operation grows this table will be corrected, extended and republished. It follows:

MINE	DEVELOPMENT OR PRODUCTION	Gravel or Quartz	LOCALTY	Number Employed	MONTHLY Payroll
Nor. Star-Empire Pennsylvania	production	quartz	Grass Valley	600	$86,500
Brunswick & Idaho-Maryland	production	quartz	West of Nevada City	200	25,500
Murchie	production	quartz	East of Nevada City	175	22,500
Hoge Dev. Co.	production	quartz	Harmony Ridge	65	8,250
Golden Center	development	quartz	Grass Valley	65	8,250
Empress	production	quartz	Newtown	40	5,400
Spring Hill	development	quartz	West of Nevada City	15	1,912
Lava Cap	development	quartz	Banner Mt.	12	1,500
Relief Hill	development	gravel	Relief Hill	10	1,325
Ancho	development	quartz	Washington	10	1,325
Stockton Hill	development	quartz	South of Grass Valley	6	765
Bullion	development	quartz	Grass Valley	10	1,325
TOTAL				1,208	$164.052

HOGE MILL RUNS 60 TONS DAILY

Superintendent Arthur M. Hoge reports that everything is going on in fine shape at the Hoge Development company's mine.

The flotation plant according to last accounts was milling 60 tons of ore daily in their mill of 50 tons rating.

In February a station was cut at the 800 level in fine ore. Within the last few weeks a 200 foot winze was sunk on one of their most promising ledges.

Development work is being carried on at the mine with the view of always having a good supply of ore in readiness for work.

Mrs. Karl Kopp left yesterday to spend about ten days with her daughter, Mrs. Cereseto and family, in Oakland. While there Mrs. Cereseto will give a birthday party it being her birth day.

Mrs. W. L. Mobley is recovering from a severe sick spell.
fo t,-d(o3 nwuqeriSi-

SLEIGH STILL TAKES MAIL TO WASHINGTON

According to Frank Davies, who holds the mail stage franchise between Nevada City and Alleghany, he has been able to make the trip the last few days without chains. There is still some snow on the ground, the worst section of the route being near the Red Ledge mine eight miles this side of Alleghany.

The road to Washington, east of Nevada City, is still blocked with snow to such an extent that a sleigh is still delivering mail the lest few miles.

Joe Lopez, who holds the mail contract, thinks that the road will be open to auto travel about Monday.

Judge and Mrs. George L. Jones are spending a few days in San Francisco on a business and pleasure trip.

E. R. Bundy, proprietor of the Leather Shop in Grass Valley, has leased the premises now occupied by the Western Union and will soon move from his present quarters, 123 Mill stret.

SPANISH MINE WAITS ON SNOW

James Bradley came up last week to look over conditions at the Spanish mine of which he is superintendent.

He stated that work will start at the mine, which is three miles north east of Washington, as soon as the road to that town is cleared of snow.

It will probably be only a matter of a few weeks until operations will start up. It is understood that the mine will employ about 40 men when it is ready to operate.

Mr. Bradley is related to our State Mineralogist Fred Bradley and it was at this property that the Bradley family first became famous in the mining world.

Ben Ballard of Santa Rosa, who is superintendent of the Kate Hardy Mining company, which operates the Brush Creek mine near Alleghany, was a Nevada City visitor Wednesday. Plans are to reopen the Brush Creek mine a little later on in the season.

PEOPLE SOON TO CAST BALLOT ON WATER PROBLEM

The city council met Wednesday in a special session and discussed the procedure for calling an election at which the people will be given an opportunity to express their will regarding the transfer of the swimming pool fund to water system repairs and to the water bond fund.

If the city votes to thansfer the swimming pool fund a $10,000 bond issue voted some years ago, now, with interest, amounting to $11,000, to the repairing and modernizing of the water system, and to the water bond fund, the city council believes it will be able to reduce the tax rate, to be fixed in August, 25 cents, or to $1.65 per $1.00 assessed valuation.

Legal advice received by the city council shows clearly that any change of the swimming pool fund to any other use will require a two thirds majority vote. City Clerk George Calanan made this statement yesterday and read the law pertaining thereto to a representative of the Nugget.

The resolution on which the ordinance will be based, is now being prepared and will be presented for adoption at the next regular meeting of the board, which falls on Thursday, April 6. An ordinance calling a special election will follow shortly.

RED CROSS FUND GROWS SLOWLY IN NEVADA CITY

Judge George L. Jones, Red Cross chairman for this section states that Nevada City is lagging in contributing its quota.

Judge Jones yesterday in discussing the situation, said:

"Nevada City has been asked to contribute the sum of $200 to the fund of $500,000 which the American Red Cross is raising for the relief of earthquake sufferers in Southern California.

"In answer to the appeals which have been made. Only $67,00 has been contributed to our quota, and as chairman of Nevada City Chapter, A. R. C., I urge those who are able to do so, to make their contributions without delay.

"The need for relief is great and, unless the people quickly respond, the Red Cross cannot carry on its work in the stricken area. When called on in the past, this community has donated liberally to relief work in sections visited by calamity and we should not now fail to help those who have been sorely stricken by the destructive earthquake shocks in our state."

The following is a complete list of those who have subscribed to date:

Nevada City Nugget, $5.00; Mr. and Mrs. A. Hartung, $5.00; Mr. and Mrs. Wade Armstrong, $2.50; Miss Minnie Brand, $1.00; Ed Murchie and daughter, $1.00; Miss Kate Kinkead, $1.00; Mrs. Jas. Penrose, $1.00; Joe O'Neill, $1. Mr. and Mrs. R. J. Bennetts, $2.00; O. McCraney, $1.00; Mr. and Mrs. George L. Jones, $2.50; Walter Carlson, $1.00; George Calanan, $1.00; Alice Langman, $1.00; Mr. and Mrs. E. C. Uren, $1.00; Chas. Graham, $1.00; John Webster, $1.

Mrs. Mary Robbins, $1.00; Dr. Suss, $1.00; Pickney Armstrong, $1.00; Benj. Hall, $1.00; Cash, 50 cents; W. B. Telfer, $1.00;

Mrs. Mary Warnecke, $1.00; Miss Mulloy, $1.00; Mrs. Dellea, $1.00; Mrs. Lon Paine, $.50; Elza Kilroy, $1.00; Neva Rebekah Lodge, $5.00; Mrs. Joanna Springer, $1.00; Mr. and Mrs. A. Seaman, $1.00; C. S. Arbogast, $1.00; Miss Elizabeth Watson, $1.00; Miss Laura Peterson. $1.00; Mr. and Mrs. C. R. Murchie, $1.00; Miss Frieda Hieronimous, $1.00; Mrs. S. Trevethick, $1.00; J. F. Colley, $1.00; Miss M. Meservey, $1.00; R. E. Harris, $1. J. Huy, $.50; Cash, $.50; Mrs. Frank Wilson, $1.00; Friend, $1.00; Mr. and Mrs. R. R. Goyne, $2.00; Mr. and Mrs. E. E. Braker, $2.00; Mrs. M. A. Langley, $1.00.

Chamber Asks Voters To Switch Pool Fund

The Nevada City Chamber of Commerce meeting last evening passed a resolution endorsing the proposal of the city council to hold a special election for the purpose of voting upon the proposal to transfer the swimming pool bond fund to the water system fund for the replacement of water mains which are old and a menace to the city's safety.

The chamber also endorsed the dance to be given by Nevada City-Grass Valley Ski club Saturday, April 29.

President Fred Cassidy announced the appointment of the following directors and committees:

Directors—S. Lee Leiter, Judge Raglan Tuttle, E. M. Rector, R. J. Bennetts, W. E. Wright, E. W. Schreiber, George H. Calanan, Fred F. Cassidy, Richard Goyne, W. H. Griffiths.

Committee on Mines and Mining—A. W. Hoge, chairman; O. A. McCraney, Gordon Bettles, W. W. Waggoner, E. C. Uren, E. E. Barker.

Mine Operators Advisory Committee: James Bradley, Wm. A. Simpkins, E. C. Jacobs, H. U. Maxfield, Fred J. Joubert, A. A. Hoffman, F. A. Crampton, G. W. Starr, Errol MacBoyle, Cooley Butler, A. R. Archibald, Charles G. Johnson.

Winter Sports—George R. Carter, F. F. Breese, C. W. Leiter, John Tognarelli, E. W. Schreiber, Walter Carlson, Karl Kopp.

Advertising and Promoting— J. W. O'Neill, H. M. Leete, Fred C. Worth, Fred Connor.

Reception and Entertainment—Chester Scheemer, R. L. P. Bigelow, Thomas W. Richards, James Penrose, J. J. Fortier, Frank Ghidotti, J. J. Jackson, P. G. Scadden, Prof. H. E. Kjorlie.

Finance—H. A. Curnow, R. N. McCormack, C. R. Murchie.

Membership—W. L. Mobley, J. F. Colley, W. B. Celio.

RESOLUTIONS

Resolutions endorsing transfer of the swimming pool bond fund to the city water system fund follows:

WHEREAS: an emergency exists in the Nevada City Water Distributing System and in accordance with a recommendation from City Engineer Uren and representatives of the Nevada City Fire Department that the main line be replaced to secure a dependable supply of water and

WHEREAS, the present tax rate in this city is deemed high and burdensome, and

WHEREAS: the construction of the proposed swimming pool would create a further fixed charge to be borne by the already over-taxed property owner,

BE IT RESOLVED: that the Nevada City Chamber of Commerce recommends to the voters of this city, when the matter is brought up for action, that they favor the transfer of the sum set aside for the construction of the swimming pool to a new fund to be used for the construction of a new pipe line, and any sum remaining after said pipe line has been constructed be used for the retirement of the outstanding water bonds.

BULLION GETS READY TO OPEN

The Bullion Consolidated Mining company, recently organized, has an option on 1,000 acres of land on the west slope of Odgen hill and running down Wolf creek westerly for one mile.

The property includes ten different veins. The depest development of any of these veins is in the Bullion inclined shaft, 1500 feet in depth.

Miners who worked in that property when it closed because of water difficulties in 1907, declare that the last samples taken at that level ran thousands of dollars per ton.

Contracts are let for erecting a 80 foot head frame. Sixteen thousand feet of lumber were on the ground Wednesday. The Pacific Gas and Electric company is stringing the power lines and the transformers are already delivered.

The company is employing 21 men clearing brush away from the collar of the shaft and from proposed roads and building sites.

Charles A. Brockington, superintendent of the Bullion, is now opening his tenth shaft in the Grass Valley district.

PHILIP HOUCK HOME SOLD AND IMPROVED

Mr. and Mrs. Everett Robinson have recently purchased from Philip Houck his property on West Broad street which was formerly known as the Barry place. The property is located just beyond the Catholic cemetery and consists of about two acres of ground on which stands a large house with a splendid stone cellar, or basement.

PROGRESS MADE IN CANADA HILL AND ANCHO MINE

Despite serious weather interruptions, operations at the Ancho-Erie mine of West Mines Corporation, near Washington, have made steady progress all winter. Production is on the increase and it is hoped that a few more months of work will place the properties in a position to operate on a large tonnage basis. There are ten men employed at the property.

H. C. Lewis, a leaser on the Ancho-Erie property, had a clean-up last month of about $1500. He reported splendid conditions underground at the mine.

CANADA HILL MINE

Orlando McCraney, president of the West mines has announced that work on the Canada Hill mine, south east of Nevada City, will be definitely started at an early date.

Plans for this property's development are wide in their scope and require detailed preparation. The preliminary work will be rushed through in record time in order to get work started on the lower levels of the mine, where it is expected that extensive ore reserves will be opened up with a moderate amount of new development.

FLIES OVER HIS HOME

Captain J. C. Kennedy came up from Crissy Field Tuesday to return with Captain Allen Chapman, U. S. A., R. C., to that station. Captain Chapman met him at Gilmore flying field and they later flew over Nevada City so that his invalid mother who was on her porch, might see them. Captain Chapman's little daughter is making a good recovery from her serious spell of whooping cough.

Mr. and Mrs. Will Hoover of Oroville were visiting her sister, Mrs. C. W. Chapman, Wednesday. Mr. Hoover is at present in the lumber business in Oroville. His wife was Miss Jessie Ogden, a Nevada City girl.

THE PAY DAY SPECIAL EDITION

This is the week of pay days. Few peoplle realize that the pay days of the twin cities are assuming larger proportions every month, that proportionately as the pay day distribution of wages and salaries increases, the twin cities will grow. At the moment they have grown to the point where housing conditions are entirely inadequate to the demand. In other words our suit of clothes no longer fits. Buttons are flying off and seams are parting. We need far visioned men with money to build us houses above ground and others to go after the yellow metal below ground.

This edition marks an experiment on the part of the Nevada City Nugget. A large number of advertisers, who have faith i nthe future, who have faith in their home towns, and who realize that the best is yet to come, have joined the Nugget in making this issue the success that it is. We believe there is as much news in the advertisements of this issue as there is in the news columns themselves and we invite our readers to give these advertisments their special attention—There are opportunities for profit in all of them.

OUR HIGH SCHOOL

The Nevada City High School needs an auditorium. It needs it more than anythoing else. It should have a place for indoor sports such as basketball. It should have a place for great school rallies, such as other high schools in this state have. The auditorium is needed for public gatherings with students and their parents, for graduation ceremonies, for entertaining and hearing eminent men and women when they visit Nevada City, for presenting school plays, for musicals and recitals of high school band and orchestra.

Aside from the many uses the high school would make of an auditorium, the people of Nevada City need an auditorium at the high school, where lecturers from the University of California can be invited to come during the winter season, where public concerts may be given, where Memorial Day may be solemnly observed, where Armistice Day programs may be given.

It would cost so little, comparatively, to build a plain, substantial auditorium, that we believe any public spirited organization in Nevada City, which would sponsor i carry through a campaign for that purpose to a successfu. sue.

There is hardly a high school in the entire state which does not have an auditorium and many of them have swimming pools. The architectural division of the State Department of Education will supply plans for an auditorium suited to a community of this size without cost and planned by experts in that line.

There are some in this community who look with complaceny upon the fact that the per pupil cost of the Nevada City High school, $114.00 per student, is the lowest in the state. We do not share that satisfaction. If the per pupil cost is low, the pupil is receiving less in the way of education and preparation for his life work than the students in other schools.

There is hardly a high school that does not offer those students who have no prospect or intention of attending a university, something in the way of vocational training. And eighty p er cent of high school students do not attend college.

On the whole, we believe the low cost per pupil in our high school is nothing of which to boast. Times may have changed since we w ent to school, but we still hold to the old fashioned notion that no particular honor attaches to the foot of the class. Some one must occupy that post, of course, but God help those who become resigned to it, or, worse, find satisfaction in it.

BOY SCOUTS

A meeting of representative men of this city got together Monday night and pledged themselves anew to advance and prosper the Boy Scout Movement in this city. No one can justly estimate the good this organization of the nation's boys has done.

It reaches from the present into the generations to come.

There is the immediate benefit that comes to the boy. All the lore that the school does not teach, of special interest to boys, and even to the boy's fathter who retains a little of the boyhood dreams, may be acquired by every boy in the organization in his march from Tenderfoot to Eagle Scout.

Then there is the benefit reflected in a higher quality of citizenship, when the Scout becomes a man.

Finally there is the richer and finer background offered the boys whose fathers were scouts, and so on, from one generation to the next generation, a beneficent circle rolling up splendid traditions and treasures of kindly humanity,—patriotism, and leadership for the future. No one can estimate the value of the Boy Scout movement.

THE PAY STREAK

By H. M. L.

A few days ago the city council discussed a bad "thank-ye-marm—crosing lower Broad Street, and also an iron fence that wobbled strangely in its job of enclosing the city library. The Nugget mentioned these things, one causing great bodily discomfort, and the other, offending the aesthetic sensibilities of our citizens. A few days passed and lo! the "thank-ye-marm" was filled by its authors, so that we no longer bounce in crosing it, and the iron fence has been straightened, so that it no longer resembles scenes from a tipler's dream. To those that caused these improvements we heartily extend our sincere thanks.

* * *

Nevada county is well served with good, clean, wholesome, rich milk. We have had no disastrous "price wars" here and we want none. As matters now stand we seem to have reached a milky haven of peace such as many a community in California does not enjoy. None of the dairymen, at the price they receive for milk, are waxing inordinately rich. They make an honest living, even as you and I, and we should see to it that they do, by continuing to patronize them very liberally. Give the milk man a word of praise now and then. Tell him how much you like his milk, for he works hard to serve you well with the best dairy products that he can secure.

* * *

Zangara, the assassin is dead. He hay have been mad or not, but having committed murder, the law required that he atone with his life. Arthur Brisbane, whose reasonong is not always sound, in a recent column, commented on the incident. He questions again the right that men accord the state to exact a life for a life.

If and when we enact laws that shall place in prison for life, those who now receive the death penalty, with no hope of pardon, no hope of freedom, we shall have imposed a greater and at the same time a more humane penalty. War, murder and public executions are brutalizing.

* * *

s an odd one, and it's true. tain gentleman, who loved his good dogs and all out-of-door sports, was out with his hounds one Sunday afternoon, coursing on the low sheep pastures across the river from Sacramento. One of his hounds started a jackrabbit and gave chase. The dog caught the jackrabbit, and, as is the way with a greyhound, tossed the rabbit into the air. A duck flying low, between ponds, crashed into the jackrabbit in the air. Both fell to the ground dead. This gentleman entered the office of a Sacramento newspaper, exhibited the dead jackrabbit, the dead duck, and the grey hound. He did not expect to be believed, but in a long life of probity and honor, he was not doubted. It happened once, but like Halley's Comet, it is likely to be a long time before it happens again.

SOFT FOR THE MULE

BAKERSFIELD (UP) One of J. Doyle's mules got plain tired. So he laid down (the mule, not Jack). Innocent bystanders called the police, the poundmaster, a veterinarian, and an ambulance. It took three hours to get the Missouri hayburner into a truck.

Governor Rolph now refers to his potential opponent in the next governatorial election, Lieutenant Governor Frank F. Merriam, "as the dry candidate for governor."

"MANY A SALE WAS KILLED BECUZ THE SALESMAN TALKED TOO LONG"

FACT FINDERS ASK 20 MILLION CUT IN COSTS

SACRAMENTO, Mar. 23—(UP)—Reductions and eliminations totaling approximately $20,000,000 have been recommended by the senate fact-finding committee in reports covering virtually every activity of state government.

In a general report summarizing findings of the committee and pointing out that the state faced a deficit of $50,000,000, the committee said:

"If public expenditures are not kept within public ability to pay, the inevitable result is bankruptcy, and public bankruptcy will result in a paralysis of necessary governmental functions and a general governernmental collapse.

GUARD CALIFORNIA

"Symptons of this condition are already making their appearance in other parts of our country and we must not let them appear in California. We feel that out duty, therefore, is to lend every effort to the drastic retrenchment. To merely shift burdens to county or other governmental units is not to reduce the cost of government, and our recommendations will not, we believe, result in shifting any present state costs to local units.

"Even if all of our proposed economies are effected, it still will be impossible to blame the budget with existing revenues. There is not an even chance of approximating a balanced budget unless the people are willing to cut the fixed educational costs of the state and to utilize highway revenues to pay the interest and redemption on state highway bonds.

FIXED CHARGES, THE BARRIER

"We can not open the doors of our prisons, nor close our state hospitals for the insane and handicapped persons. We can not entirely eliminate our courts and certain executive and administrative functions. Fixed charges in state government at the present time constitute a barrier to complete retrenchment and have limited the scope to our recommendations.

In explaining the financial condition of the state, the committee report pointed out that "during the past 70 years expenditures have increased over 14,000 per cent while the population has increased only 1,400, per cent." In other words governmental expenditures have increased just 10 times as rapidly as the increase in population.

"It is interesting to note in this connection," the report said, "that our state indebtedness has increased 2,200 per cent since 1910. It was then approximately $5,000,000, and now it is approximately $140,000,000. These figures do not include the debts incurred by local governmental subdivisions."

THAT TIRED FEELING

SACRAMENTO, (UP) On a recent warm afternoon an exclusive United Press survey of the state senate showed the following: 15 empty seats; six senatorial heads nodding sleepily; three senators gazing at the ceiling and one out the window, and 14 trying to look interested in the speech being made.

CUSTOM MILL TO OPEN VERY SOON

The West Coast Mines Corporation is to start up their custom mill right away. The mill is located on the Buffington property west of Nevada City.

The company now has quite a tonnage of ore ready to be milled. By the starting up of the custom mill at this time it shows that quite a number of small operators are at work in this vicinity.

O. McCraney and Gordon Gettles are representatives of the company in this district.

Mrs. Andrews and Mrs. Martha Dillon walked to Banner Mountain Wednesday and visited with Cap. Nihell. The ladies walked about seven miles, there is no snow up that way at present, but there has been as much as seven feet during the winter.

LOCAL HAPPENINGS

Judge F. T. Nilon is in the Jones Memorial hospital in Grass Valley undergoing treatment.

Mrs. William Richards is seriously ill at her home on Broad street, Nevada City.

Sheriff George R. Carter and Deputy William Rickard were called to Truckee this week on official business.

County Superintendent Mrs. Ella M. Austin spent Tuesday visiting the schools of French Corral, Sweetland and Birchville.

L. G. Beloud is a candidate for city councilman in Grass Valley at the request of a number of voters of that city.

Miss Eugenie Wright left this city yesterday for San Francisco. She plans to spend a few days at the bay metropolis.

Maurice, photographer of Grass Valley, has recently installed a modern Kodak finishing plant in his shop in Mill street. His shop is one of the most complete outside of San Francisco.

SUITORS ROUGH STUFF WINS FINE OF $50

LODI, Mar. 23—(UP)—"Rough stuff" probably won the hand of many a fair maid in the caveman days, but it doesn't go over so big in these modern times, in the belief of Gus Hieb.

Arrested on complaint of Miss Pauline Hines, who testified he beat her when she refused to marry him. Hieb was sentenced to pay a $50 fine and given a suspended term of 90 days in jail.

The girl's mother told the court she also became a target for Hieb's blows when she interceded in behalf of her daughter.

The idea seems to prevail in Congress that the best place to balance the budget is on the back of the taxpayer's neck.—Norfolk Virginian Pilot.

COURT OF HONOR GIVES AWARDS TO 20 SCOUTS

Judge Raglan Tuttle last evening presided at a Court of Honor in which 20 boys belonging to the Nevada City troop of Boy Scouts received merit badges and honorable promotions to higher rank. Others officiating in the impressive ceremony, were H. A. Curnow, president of the district Boy Scout Council, Miles Coughlin secretary and Dick Parsons, scout master.

Twelve boys were promoted to the Tenderfoot rank. They were Dick Stevens, Tod Bonner, Clemens Organ, Morris Roberts, Philip Angove, Robert Van Berg, Leonard Dalton, Donald Doyle, Ernest Chapman and Arthur Porier.

Hirschell Lotz was promoted to be second class scout.

The following lads became first class scouts: Richard Marriott, Robert Schiffner, Dick Bennetts and Herman Clendenen.

Boys to receive merit badges were: Albert Pratti, first aid, cooking, interpreting, leather work; Herman Clendenen, wood carving; Bill Kirkham, first aid, athletics; Dick Bennetts, handicraft, firemanship, and marksmanship; Allen Widauf, book binding, firemanship, marksmanship; Nat Robins, public health.

At the conclusion of the ceremony Dr. C. W. Chapman, for many years one of the staunch sponsors of scouting in Nevada City, delivered an address recounting a little of the history of the Scout movement. He declared that as soon as its purpose had become generally understood, it spread from England to this country and then started around the world like wildfire, until now there is hardly a country that does not have its Boy Scouts.

The Rev. Father O'Reilly spoke warmly of the splendid personell of the Boy Scouts, bore witness to the fact that he had seen them living up to their profession of a good deed daily, and commended all parents who encourage their boys to become Boy Scouts.

Dr. Gundrum of Sacramento was a professional visitor in Nevada City this week.

The Yuba River Country

By J. L. WOLFF

A beautiful April day in the Sierra Nevadas as a young girl of 17 or there-abouts held tightly to the armrest of the fireman's seat—while the lurching cab of the Narrow Gauge locomotive swayed from side to side; the crispy air of an 1876 spring day in the mountains painted her cheeks and the excitement put a sparkle in her eyes.

But young Jim McCormack was too busy stoking to admire the picture presented by Mary Coleman as she shared his fireman's seat with her father, John C. Coleman, President of the Nevada County Narrow Gauge Railroad. The road was still under construction and this was but the second time that a passenger had been carried on the line. Mr. Coleman had gone to San Francisco to bring his daughter for an Easter vacation ,a welcome respite from her studies at a female seminary. But a few days before, James Burns a Grass Valley lawyer, had been the road's first passenger.

RAILROADING BEGAN AS BOY

James McCormack was born at Cushing, Quebec, November 16, 1853—the son of John McCormack and Jane McCallum. As a boy he used to ride on the engine of America's oldest train on the nearby Carillon and Granville Railway, which ran between the upper and lower rapids of the Ottawa River. On that engine there was no fireman so the engineer had to leave the throttle open while he stepped down to stoke 4 foot hemlock wood.

In 1872, at 19, Jim was firing and braking on the Central Pacific—mostly between Colfax and Truckee. For a short time he also ran on the Oregon Division as far as Redding, which was railend. If a brakeman was needed—he was brakeman; and if a fireman was needed—he was the fireman. It was less than three years after the completion of the Transcontinental line and hand brakes and Lincoln Pin Couplings were still in use.

Toward the end of 1875, Mr. Kidder, then Superintendent of construction on the Narrow Gauge saw lanky young McCormack in the Colfax yards and asked him if he wanted a job as regular fireman on the Narrow Gauge. Jim's casual acceptance was the start of a career with the short line that lasted through the last quarter of the 19th Century—and nearly a third of the 20th. When he retired in June 1931 for a trip back to the scenes of his boyhood he had rounded out 59 years of railroading of which nearly 56 had been with the Nevada County Narrow Gauge Railroad.

PICNIC EXCURSIONS

In the early days of the railroad picnic excursions played an important part. They meant an extra train or two—and many aditional cars. At such times extra help had to be put on. Most of these young men lived in Colfax where they get more or less used to railroading by hanging around the Central Pacific trains. The boys of Grass Valley were at a disadvantage in this regard because Kidder would not permit them around the depot. McCormack remembers one young fellow by name of Dyer, who used to get frequent extra jobs on the Narrow Gauge.

Finally his Narrow Gauge experience helped him to get a regular job with the Central Pacific. Today, as Vice-President of the great Southern Pacific Company, J. H. Dyer has perhaps forgotten the thrill he used to feel when he wore the extra brakeman's cap on the tortuous line between Colfax, Grass Valley and Nevada City.

The locomotives were wood burners—and the wood supply used to be washed down the old V flume to Town Talk, from which a short flume carried it alongside the railroad. Each trip, the engine stopped at the wood pile and the fireman, helped by the brakeman and conductor, had to fill the tender with this wet wood. The capacity was four tier and that much was used each round trip. They also had supplies of dry wood at several points along the railroad so they would not run out. And sometimes the wet wood was also green and then McCormack had to throw in some dry to get a fire hot enough to keep up the steam. The smokestacks were the old drum type with screens to catch the sparks. Every trip large quantities of cinders had to be removed. During the run, he had very little chance to sit on the fireman's seat as throwing in the wood was a continuous sort of job.

SIDELIGHTS ON LEGISLATURE

By United Press

SACRAMENTO, Mar. 23—(UP)—The millenium has arrived! It's advent was marked by a "peace pact," formally consummated in the assembly by Assemblyman William Hornblower, ardent wet leader, and Dr. Clarence Briggs, long a champion of prohibition. During discussion of California's attitude on repeal of the 18th amendment, Hornblower asked the privilege of the floor for the Doctor. The assembly applauded, as permission was granted and the erstwhile antagonists engaged in private discussion.

A moment later the incident took a serious turn. Frank Wright, Whittier, questioned Hornblower's sincerity. The aggressive San Francisco legislator became angered. "I've known Dr. Briggs for years," he shouted, "and although we may differ in our beliefs I hold the greatest respect for the gentleman. I think Mr. Wright's remarks are out of order."

An economy lobby has descended on the legislature. It is the Common Property Taxpayers' association and, led by Lewis Foulke, Gazelle, is an aggressive organization. Contrasting with protests against drastic retrenchments, consolidations and salary cuts are such remarks as this from the plain spoken farmer of Northern California: "The only kick we have against the Senate fact finding committe's economies is they haven't gone far enough. As for reduction of state employes' salaries, remember two things; first, the dollar of today is worth 70 cents more than the dollar of 1929; second, the breaking point in taxation has been reached and the people won't stand it much longer unless government costs are cut."

Senator W. P. Rich, Marysville, bears the label of "doctor." During a debate over the so-called "humane pound" bill in committee, a speaker was soundly berating doctors for using dogs for experimental purposes. During a brief pause, a senator near Rich at the committee table remarked: "Pardon me, but have you met Dr. Rich?" Th espeaker blanched and thereafter tempered his remarks about the medical profession. (P. S. Rich is an attorney).

This remark, or something in the same vein, has been made by scores of legislators since the second session convened: "It is peculiar how this economy and retrenchment program has reacted on the state. Everybody, without exception, wants to save. They have flooded us with wires and resolutions preaching economies. But let one logical economy strike their own community, and they're down here in a minute with vigorous protests."

An assemblyman on the fish and game committee had been quietly listening to officials and attaches of the state fish and game commission protest against a bill providing the state should pay for construction of fish screens. Almost without exception each speaker prefaced his talk with "Now, I was born on a farm." Suddenly this particular lawmaker interrupted: "I, too, am a farmer—and incidentally, a bona fide one—and I merely observe we have a surplus of farm-born officials in this government."

BILL PENDING TO TAX TRUCKS TO AID CITIES

SACRAMENTO, Mar. 23—Nevada City would receive $3,577 annually for street work as its share of the proceeds of a "ton mile" tax proposed for trucks and trailers using California streets and highways, according to estimates made here today by the State Board of Equalization.

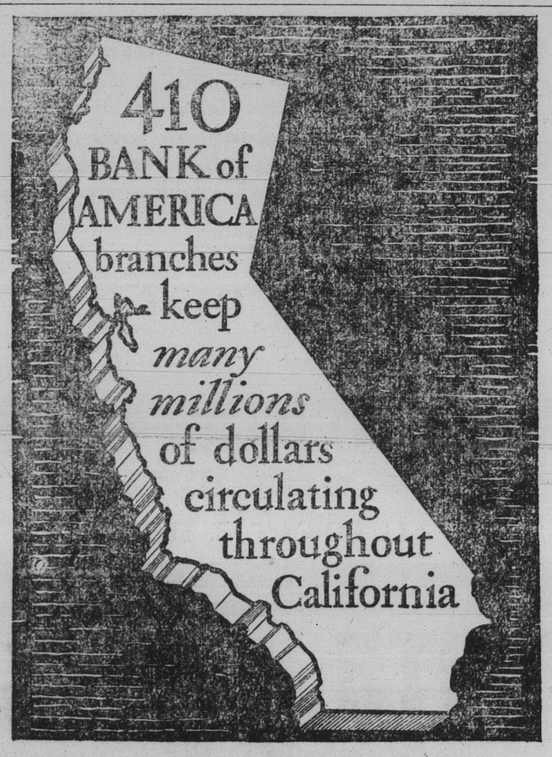
Introduced as Senate Bill 125 by Senator Bert B. Snyder of Santa Cruz ,this measure would displace present flat fees on heavy vehicles, based on their unladen weight, with license taxes computed on gross weight and mileage actually travelled.

"Californians are faced with an acute road problem," said Senator Snyder, "and unless something is speedily done to require all commercial users of our streets and highways to pay their fair share of the expense of upkeep and construction, great hardship will result to the entire public.

To afford some relief for city property owners who are now taxed for the upkeep or streets worn in large part, through truck use, Senator Snyder proposes in his bill that, after interest and redemption charges for state highway bonds have been met from the proceeds, the balance will be apportioned to the cities to pay for street work.

By paying for highway bonds out of this source, Senator Snyder believes that it should be possible to avert similar demands on gasoline tax funds, thereby enabling the state to take into the highway system enough more county roads to permit entire abolition of county property taxes for that purpose. Thus, the measure is aimed to help both the farmer and city residents, who are overburdened by taxes on their property.

"Each municipality would receive a minimum of $2,000 a year from this license tax," explained Senator Snyder. "The balance of the fund would then be distributed between the cities on the basis of their population. This should assure every city in the state an ample fund for street work, as approximately $4,600,000 would be available."



These dollars—building and sustaining industry—come from a vast reservoir of capital which represents the accumulated savings and financial reserves of over 1,500,000 depositors.

Electric RANGES MAKE CASH SAVINGS

...lower food costs...cut wasteful shrinkage

COOKING WITH LITTLE OR NO WATER, most successfully accomplished with the electric range, is more than a new kitchen practice. It saves time and money in food preparation.

When a large amount of water is used in cooking meats, much of the juicy meat flavor is drawn into the excess water. The meat becomes tough and tasteless. When vegetables are boiled vigorously in similar use of water, the most valuable and body-building nourishment goes into the water and is usually thrown away. Cooking with little or no water is important then because foods so cooked are more healthful and taste better.

The steady, even heat from the glowing coils in an electric range preserves the flavor and increases the tenderness of the least expensive meats and cheaper vegetables. Electric range cookery means finer meals at lower cost every day of the week. And what is most important of all, actual food shrinkage is 20 to 33 per cent less, a cash saving in the household food bill.

The best way to know why the electric range does these things is to look at the new 1933 models on display in our local office. Your electric dealer has them too. This year these new electric ranges of finer quality are lower than ever in price. Ask about the easy purchase terms on the new 1933 electric ranges.

LEGAL NOTICE

SUMMONS
In The Superior Court Of The County Of Nevada, State Of California

Action brought in the Superior Court of the County of Nevada, State of California, and the Complaint filed in said County of Nevada, in the office of the Clerk of said Superior Court.

ELLIOTT, ATKINSON & SITTON
Attorneys for Plaintiffs.

EUGENE BENJAMIN and JAY RACKERBY, carrying on business under the firm name and style of BENJAMIN & RACKERBY,
Plaintiffs
vs.
ROBERT F. WERNER
Defendant

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GRBETINGS TO:

ROBERT F. WERNER, Defendant.

YOU ARE HEREBY NOTIFIED, that an action was brought against you by the above named Plaintiffs in the Superior Court of the County of Nevada, State of California, by filing a complaint in the office of the Clerk of said Court on the 6th day of December, 1932, in which action EUGENE BENJAMIN and JAY RACKERBY, carrying on business under the firm name and style of Benpamin & Rackerby are Plaintiffs, and you are Defendant.

YOU ARE HEREBY DIRECTED TO APPEAR and answer said complaint within ten days from the service of this summons, exclusive of the day of service, if served on you in said County of Nevada, and within thirty days, exclusive of the day of service, if served elsewhere; and you are further notified that unless you so appear and answer within the time above specified, the Plaintiff will take Judgment for any money, or damage demanded in the Complaint as arising upon contract, or will apply to the Court for any other relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the County of Nevada, State of California, this 6th day of December, A. D. 1932.

R. N. McCORMACK, Clerk.
By R. E. DEEBLE, Deputy Clerk.
First Publication, Mar. 24th.
Last Publication, April 21st.

REMINGTON HILL GRAVEL IS RICH

Operations at Remington Hill will be well under way shortly. The properties under consolidation of the Remington Hill Placers Inc., are now being further prospected with the view of determining the most efficient plan of operation. By the middle or last of April when the heavy snows are melted it is probable that the plan will be fully developed.

Frank A. Crampton, Executive Secretary of the Mining Association of California and Manager of the Mining Department of the Los Angeles Chamber of Commerce, principal owner of the newly formed company, and its mining engineer, has been at the property during the past two weeks conducting an extensive sampling of the gravel. He states the results have been very satisfactory and the values are fully up to previous expectations and check the earlier samples taken.

Recent work appears to confirm Mr. Crampton's theory of an unworked channel running north east toward Omega and development along the east rim of the old channel has disclosed some very splendid unworked ground which runs between $4 and $6 a yard.

A change of personell at the mine has been effected. Mr. Anchors, a veteran placer operator has been placed in charge of the property during the present development stage.

As soon as equipment and supplies can be taken to the property, work will be started on a major scale. A good water season is anticipated as there are still three to seven feet of snow on the drainage above the mine.

Mrs. A. J. Newman residents of Shoeshone, Idaho for 27 years has located permanently in Grass Valley. The men patronize her new boarding house at 116 Murphy str., Grass Valley, say its just like home.

WHISKY USED FOR BABY'S ANESTHETIC

SACRAMENTO, Mar. 23—(UP)—Ardent anti-prohibitionists possibly may cite this as an example of the "life saving" properties of "good liquor:"

At a local hospital recently surgeons were confronted with the problem of securing a anesthetic for use on a one-month-old baby so they might perform a delicate operation. A sufficient number of drops of whisky produced the required unconsciousness and the surgeons proceeded with the necessary repairs.

The baby—a boy—was reported as good as new following recovery from his little jag.

IMPOUNDS FLOCK OF SHEEP, NOW HE'S "GOAT"

LAKEPORT, Mar. 23—(UP)—J. C. Reynolds, Lake county rancher, has good reasons to believe he's been made a "goat" in the sheep business.

Recently 229 head of sheep strayed away from the E. C. Cunningham ranch and Reynolds took them in. Sometime later he filed suit and won a judgment of $1,049 for their care and feed. Cunningham answered the judgment with "keep the sheep."

Claiming the sheep have eaten all the feed in his district and that he can't sell them for any suitable amount, Reynolds has filed another suit seeking enforcement of the judgment.

MEAN MARKSMAN

GRASS VALLEY (UP) Some people just naturally don't react properly to warm, spring breezes. Take, for instance, the person who has "winged" several kites with a 22 rifle from some hidden vantage point on Murphy field, the town's favorite kite-flying rendevous.

Our noble body of law makers have at last earned a lifetime vacation after strenous weeks of untireing labor. They have passed a 60 day moratorium on foreclosures

NEVADA CITY MEN RALLY TO BACK SCOUTING

A representative gathering of Nevada City business and professional men met Monday evening organized for service in carrying forward the Boy Scout movement in this community. A definite program was agreed upon. H. A. Curnow, Nevada City district chairman, presided.

Dr. C. W. Chapman, one of the veterans in the Boy Scout movement in this city, explained the urgent need of re-organizing the forces in this city behind the Boy Scouts. He described the training schools now available for scout masters, their assistants, and open to any one identified with the executive and administrative work of promoting Boy Scout service.

SCOUTS NEED ROOM

Judge Raglan Tuttle described the various migrations that the Scouts have made to find a meeting place. He declared that the boys should have a suitable place to gather, where after the business of the troop is concluded they can play their games, put on their rehearsals, practice their stunts, and yell as much as they wish.

It developed that at present the Scouts are meeting in the Washington school, and that while they have been welcomed there, owing to the fact that the room in which they meet is largely filled with desks, they have no place in which to play their games or carry out their programs.

Otto Schiffner declared himself pleased with the chairmanship of the finance committee to which he had been assigned. He stated he considered it as one of the easiest in the organization. He pledged himself to do his best for the Siouts. Mr. Schiffner was among the pioneers of Scout movement in Tonopah and has had valuable experience in all Scout executive posts.

EARLY SCOUTING

John J. Fortier recuonted the early days of scouting in Nevada City, when the movement met with the opposition of the city's saloons, and had a hard up-hill fight to get started. Nevada City organized one of the first troops in the United States.

Judge George L. Jones declared that Scout activities and their promotion, constituted too big a thing to be premitted to lag in any community. The boys of Nevada City, he said, were entitled to the best that Scout service offers.

BEAUTIFUL PAHATSI

Dr. Chapman told of the beautiful camp at Pahatsi, the beautiful lake there and the sturdy lodge which has been constructed there, with its steep roof for shedding snow. It was suggested that an excursion from this city be organized among Scout supporters to visit Pahatsi and see just what the Tahoe Scout region has provided for its boys.

W. W. Griffith, secretary of the Nevada City Chamber of Commerce, offered any assistance he was able to give. He particularly emphasized the need of an adequate and suitable room for Scout meetings.

Muller Chapman, Eagle Scout, spoke briefly of the splendid ties of friendship which Scouting promotes among the boys. He was heartily applauded.

Chairman Curnow announced the appointment of the following committees:

COMMITTEES APPOINTED

The following were appointed by the chairman. The first named on the various committees is the chairman of each group:

Finance: O. E. Schiffner, Myers Mobley, Frank Davies.

Court of Honor: Judge Raglan Tuttle.

Camping: W. F. Sharp, Leland Smith, William Fouyer.

Troop Committee of Hydraulic Parlor: C. W. Chapman, E. J. Kilroy, Joe G. O'Neill, Jr., M. D. Coughlin.

Civic Service and Publicity: R. J. Bennetts, Charles F. Parsons, M. D. Coughlin, J. W. O'Neill, H. M. Leete.

Troop Organization, Leadership and Adult Training: Judge George L. Jones, Rev. H. H. Buckner.

Cubs: W. C. Perry, George L. Jones, Carl Tobiassen.

Transportation: F. F. Cassidy, R. R. Goyne, George R. Carter.

Safety: William C. Fouyer, A. J. Rore.

Reading: H. K. Kjorlie, O. McCraney.

Entertainment: Frank Davies, Myers Mobley, Beverly Barron.

Board of Review Prior to Court of Honor: John Fortier, P. G. Scadden, Wade Armstrong, Rev. P. J. O'Reilly, W. E. Wright, A. W. Hoge, Gordon Bettles.

Secretary of General Committee and District Commissioner for Nevada City: M. D. Coughlin.

Troop Quarters Committee: O. McCraney, Judge Tuttle, C. W. Chapman.

Special Contact Committee: Carl Tobiassen, Ray Wilde.

Cookery Hint: The taste of an onion can be improved by adding a pound of steak to it.—Los Angeles Record.

LUMBER TALKS

We are a Nevada City's Build-Material Supply House—fully equipped to supply the needs of those of our city and adjoining territory who may from time to time, require lumber and building materials of all kinds.

Spring is actually here, and is evidenced by the fact that inquiries are increasing for materials both for new construction and genuine repair.

We are interested in the success and growth of Nevada City and the neighboring country, and shall continue to interest ourselves in their development.

In addition to general building materials we carry an excellent grade of paints and are at the time, offering a special bargain to anyone in need of paint.

Please call, phone or write for our proposition.

We join with the Nevada City Nugget in wishing our friends and patrons a prosperous 1933.

NEVADA CITY

Queen city of the mountains,
She waits beside the way,
Green trees keep watch about her,
Her garden plots are gay.
She looks out to the future,
Her watchword is, "Advance!"
And with her ever walketh the spirit of Romance.

Queen City of the mountains,
A verdant gateway she
To magic realms of beauty
And golden mystery;
With smiles she bids you Welcome,
Inviting you to stay,
And dream a while with memory
Where life is fair and gay.

Queen City of the mountains,
She counts her treasured wealth,
In happy homes and industry,
In kindly hearts and health;
And so she bids you Welcome,
Oh, traveler for a day,
And hopes that when you know her,
You'll settle down to stay.

A. MERRIAM CONNOR.

Miss Lydia Groves is Camptonville Postmaster

CAMPTONVILLE, Mar. 22—Miss Lydia O. Groves received notice Monday of her appointment as Acting Postmaster of the Camptonville Post Office by Postmaster General James A. Farley to fill the vacancy created by the death of her sister the late Mary M. Groves. Miss Groves served as assistant postmaster for many years and is well qualified for the position. Her appointment to the postmastership is expected to come within a short time.

Charles J. Smith of Oak Valley, made a business trip to Marysville Monday.

NORTH SAN JUAN
Mrs. F. M. HARRIS

By MRS. F. W. HARRIS

NORTH SAN JUAN, Mar. 15—Mr. Odin and a friend from Reno are camping for a few weeks on the Brom place west of town.

Mr. Spangler of Sacramento is visiting Mr. and Mrs. George Green of Sebastopol.

Mr. W. C. Walker and the Ennis Bros., are now at home as the high water in the North Yuba drove them from their camp at their mine there.

Mr. and Mrs. F. M. Harris had a very pleasant surprise on Wednesday when Mr. and Mrs. McPheeters of Burbank dropped in to spend the day. The young couple were married on Saturday evening in San. California. Some of the guests invited to the wedding were obliged to telephone that they could not attend as their home was badly demolished and furniture, dishes, etc wrecked. Mr. McPheeters was in an electrical repair shop in Los Angles when the earth began to quake. He said one's first impulse was to run out of doors and then to keep on running. They were delighted with the mountain scenery and bracing air and greatly interested in the diggings and history of mining operations of former days in this vicinity.

NORTH SAN JUAN, March 21—Mr. and Mrs. Ernest Solaro were Nevada City visitors on Saturday.

Mrs. Odin and other members of the family from Reno, visited Mr. Odin at his camp west of town, on Sunday.

W. P. and Miss Millie Clerkin, motored to Auburn and Loomis on Friday to visit friends over the week end.

Dr. Firness and daughter of Visalia are visiting Mr. and Mrs. Homer at the hotel for a few days. Dr. Firness is looking over some of his mining claims in this locality.

The P. G. and E. Company are soon to have 40 men at work on the flume. Already some of the men who have been employed in past season's are working and this helps to make our town more active.

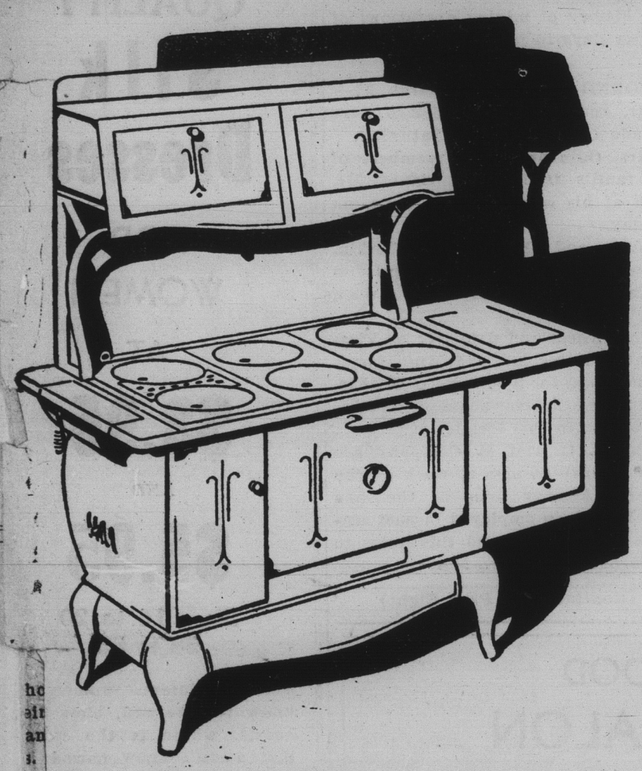
Fix up YOUR KITCHEN



It weighs 500 lbs. (most stoves near this price weigh about 400), that's why it holds heat better and bakes better

COAL and WOOD
RANGE
$66.95

It's Full Porcelain Enameled

The extra weight of cast-iron is put into such parts as oven plates and grates—wherever weight is really needed for strength and long wear.

The 6-lid cooking top is unusually large. Heat spreads through it quickly. Saves fuel.

As for the baking oven: it's made for your widest baking tins, full 18" wide *all the way back*. It's the biggest oven, for the money, you can buy.

And the whole range is covered (except on the back and cooking top, of course) with the best porcelain enamel made, in ivory and spring green. It cleans with a damp cloth. *$5 down, $7 monthly*
Small carrying charge.

MONTGOMERY WARD & CO.

Our Correspondents

NORTH SAN JUAN

Miss Bertha Velasco and friend Miss De Berry, have come up from Marysville for a short visit with Mr. and Mrs. Vernon Velasco and to attend the dance to be given by the base ball team on Saturday night.

Mrs. Huckins went to Nevada City with Mr. and Mrs. Acton Cleveland on Tuesday afternoon to attend the funeral of Mr. Cleveland's grandfather, Mr. J. S. Langdon.

Two truck loads of men from the camp of the unemployed at Nevada City went through town on Tuesday, to cut and burn the brush along the boulevard near Freeman's Crossing. The road has now been cleared of brush from Nevada City to the Yuba Co. line.

Mr. Huckins is showing three beautiful nuggets which were picked up along the Yuba River last week. Two are quartz specimens and over half gold, the third was nearly pure gold, the three weighed about four ounces. All were highly polished by their long traveling from no one knows where.

Mr. and Mrs. Gordon Kessler went to Colfax on Friday, returning Saturday. While there they visited the Haffeys at the Spring Valley Dairy. Miss Wilma Kessler is going to school to Mrs. Haffey at Drum. Her parents were surprised to see that she had gained six pounds in two week's time due to the change of climate.

The San Juan base ball team are to give a dance in Solaro's hall on Saturday night, March 25th.

AIRPLANES TOO MODERN FOR PRIMITIVE AREAS

Airplanes are too modern for Primitive Areas in the national forests says Uncle Sam. Primitive Areas are sanctuaries dedicated to preserve natural conditions on the rougher and more inaccessible parts of the national forests. No permanent structures are allowed and no roads are built into them. They are nature in the rough, beloved by the few who still possess the old-time pioneering spirit and who are willing to forego the speed and comforts of modern civilization when on their vacation. But absence of roads is no bar to the aviator and the trouble started when airplanes began to invade the wilderness of the high country. The pioneers contended that no place would be primitive if airplanes took to dropping in and parking all over the mountain meadows and any other available spots. They would disturb the wild life and give air tavelers an undue advantage in hunting and fishing.

FRENCH CORRAL

MRS. KATE M. SULLIVAN

FRENCH CORRAL, March 21.—Well for the past week, there is no mistaking the approach of spring. With the nights warmer, one can almost see the grass growing. Fruit trees and flowers in bloom everywhere. Spring is a little tardy this year, but beautiful as ever.

The tent life in this section is on the increase and there are many new-comers whose names we have been unable to learn.

Those with children help swell our school attendance. We hope the economy cut will not be given to our rural districts and thereby deny some of the children the opportunity of an education.

St. Patrick's Day was observed by a dance Saturday night. It was well attended and a very pleasant time was enjoyed by all. Good music was furnished by the Ridge String Band—Tex Weaver, banjo; Curley Dale, mandolin; and Vernon Valasco on the guitar. Refreshments were on tap at midnight.

C. D. Mitchell, of Nevada City delivered a big load of lumber on the property of Clarence Meyers last Friday. We were very sorry to hear of the serious accident which befell Mr. Meyers who accompanied Mr. Mitchell on his return trip. In turning out to allow a car to pass, the driver went too far out on the soft grade and the truck was overturned. Mr. Meyers is now at the home of his sister, Mrs. Mary Mitchell, of Grass Vallley. Mr. Meyers, after much delay and many disappointments had just completed plans to carry on mining operations at this place. This will cause further delay, but at last accounts he was recovering nicely from the accident.

Joe Swazey made a trip by auto to Rice's Crossing last Saturday. He reports the road in fair condition and by careful driving one can very easily make the trip.

Miss Frances Moulton came up from Sacramento Soaturday to spend the week-end with her parents. On her return trip Sunday evening she was accompanied by Mrs. J. W. Culver as far as Grass Valley. Mrs. Culver intends to remain in Grass Valley to be in attendance at the Ministrel Show to be gievn by the members of Manzenita Parlor N. D. G. W.

Mrs. Josie Dalberg and Joseph M. Fogarty of Hammonton district was up to visit relatives last Sunday.

Mr. Perry Lindsay and son will make a trip to Oregon this week.

Mr. and Mrs. Kirkpatrick and little son are newcomers to this section this week and will occupy the house owned by the late Mrs. R. Bishop.

Mr. Gant, the "Rawleigh Man" of Grass Valley was a visitor in section today.

Mrs. Ella Austin, county superintendent of schools paid a visit to the French Corral School today. Teacher and pupils always look forward with much pleasure to the visits of Mrs. Austin.

W J MELLON, SUPERVISOR OF YUBA, HONORED AGAIN

CHALLENGE, Mar. 19—W. J. Mellon, veteran Supervisor of the 5th District of Yuba county, and a resident of this place, was re-elected as Treasurer of the Supervisors Association of the State of California at their convention held at Sacramento last week. This is the third time he has been returned to this honorable and responsible position. He was not in attendance at the convention this year due to convalescense from a bad attack of the flu.

Mr. H. L. Brown and Jack Miller are leaving today for Grass Valley. They are going on business.

It Takes More Than Salts, Calomel, Mineral Waters, Oils, or Laxative Pills to Arouse a Sluggish Liver

They Give Only Temporary Relief From Constipation and Biliousness, Because They Have No Effect Whatever on the Liver or Its Production of Bile

Bile is nature's own laxative and your stomach and bowels require at least one quart of fresh bile every day to keep them clean, pure, free from fermentation, putrefaction, gas and disease germs.

When your liver becomes torpid or sluggish the bile stagnates and stops flowing freely. The contents of your bowels become the breeding place for germs and poisons; your food does not digest—it just ferments and decays in the bowels. The blood absorbs these poisons and you suffer from constipation, gas, sick headaches, biliousness, nervousness and sour stomach.

Sargon Soft Mass Pills will remove the cause of this condition and purify your entire system in nature's way. They are not like any other medicine you have ever taken. They are so gentle, thorough and natural in their action that there is nothing about them to remind you that you have ever taken a medicine, and most remarkable of all you gradually reduce the dose until you no longer require a laxative at all.

Five years ago it was generally believed that calomel and laxative drugs stimulated the liver, but modern science has proved that calomel, salts, mineral waters, oils and other laxatives have no effect whatever on the liver.

Sargon Soft Mass Pills act directly on the liver because they contain two amazing substances which highest medical authorities agree are the only effective stimulants to the bile-producng activity of the liver known to modern science. These substances stimulate and invigorate the liver to cleanse and purify itself through increasing its production of bile. This fresh bile immediately starts to work neutralizing acids and poisons, stopping fermentation and decay, cleansing and purifying the bowels and sweeping out accumulated poisons.

Unless you have tried Sargon Soft Mass Pills you can have no idea of the effects produced by this natural cleansing of your liver and bowels. It makes you feel years younger, stronger, healthier and happier. It brings back life and color to faded eyes and cheeks, restores the appetite and sound digestion—gives you a new outlook on life itself.

Insist on genuine Sargon Soft Mass Pills. Don't be misled. There are only two known substances which will actually stimulate a torpid or sluggish liver to cleanse and purify itself by increasing its production of bile. Sargon Soft Mass Pills contain both of these substances and no other advertised medicine on the American market today does contain them.

Only 60c for a full 30-day treatment. At your druggist, or write G. F. Willis, Inc., Atlanta, Ga.

STATE WIDE VOTE COMING IN JUNE

SACRAMENTO, Mar. 20—(UP)—A special state-wide election is almost certain to take place in California around June 1, it was apparent from legislative developments.

Three issues will probably be submitted, legislative leaders indicated:

1 Referendum on the 21st amendment which proposes the repeal of the 18th amendment of the federal constitution.

2 A $20,000,000 unemployment relief bond issue.

3 A $55,000,000 state bond issue to refund irrigation and reclamation district bond issues.

Perhaps a fourth issue may find its way on the ballot. If the Riley-Stewart tax plan which provides for repeal of amendment one and drastic revision of the tax system, passed both houses, it would be submitted to the electorate. Assuming the Riley-Stewart tax plan will go to the people, and feeling it will be approved, a number of legislators feel the legislature should recess until after the election—this so enabling acts could be passed immediately.

California must hasten its unemployment relief program. A. W. McMillan, R. F. C. representative, bluntly informed the legislature that California must launch a tangible self-help program before the R. F. C. will consider further loans to the state.

The prohibition referendum measure is hung up in senate committee—it passed the house—for the time being. Drys are still striving to amend the assembly bill by providing for election of delegates to the constitutional convention by districts.

Such an amendment would be a distinct victory for drys and would enhance their chances of preventing California's endorsement of the prohibition repeal resolution passed by congress.

As the bill is now drawn, it provides for selection from the state at large.

Assemblyman C. Ray Robinson's bill providing for a $55,000,000 bond issue to refinance irrigation districts of the state, easily passed out of the house irrigation committee and was given a fair chance of making its way though the legislature.

Whether or not all three measures come before the people, it is becoming increasingly apparent there will be a special election to decide one or more issues that must be submitted to the people. The main impetus for an early special election is the unemployment relief bond issue. That, legislative leaders made quite clear, must go to the people immediately, otherwise the state's vast relief campaign might bog down for want of funds.

SEVEN LUCKY NUMBER FOR THIS LITTLE GIRL

STOCKTON, Mar. 23—(UP)—The number seven is something more than a lucky number on a pair of dice as far as little Donna Gayl Stidston is concerned.

Donna recently was seven years old. At that time her parents, Mr. and Mrs. W. A. Stidston reveal the girl was born on the seventh day of the week on the seventh day of the month, at the seventh hour of the day in the seventh ward of the hospital.

Incidentally, she weighed seven pounds seven ounces and is the seventh girl in the family bearing the Stidston name.

SPRING FEVER AGAIN

BAKERSFIELD,—(UP)— A bull on the Tracy ranch near here thought it was time for a little plain and fancy cavorting. Result: Cecil Tracey's cowboy hat, eaten; Roy McCulley's sweater, partly eaten; one hay wagon, slightly upset; one stretch of fence, drooping.

Missouri, the home of the corncob pipe, also is the home of the world's largest child—a boy 7 feet, 8 inches tall, weighing 340 lbs., who just celebrated his 15th birthday last week.

What monkey business is this? We hear that the "Horsefeather" brothers are going to produce their own pictures, so save your cocoanuts for the next act.

LOOKING UP

By S. G. RUBINOW
(United Press Special Correspondent)

SACRAMENTO, Mar. 19—(UP)—The prediction that the country would turn strongly toward the idea of business dictatorship, is coming true.

More power has just been given to an American president during times of peace than ever before in the history of the United States. Still more power will be put into the hands of President Roosevelt.

Countries now under rule of dictators include Italy, Russia, Germany, Austria, Austrailia.

In Indiana, United States of America, the new governor is virtually a state dictator. Or, if you want to apply a more polite and milder term, you can call him a business manager. It means the same thing.

The people are rapidly learning that democracies function only on paper, not in practice.

In fact, the greater the democracy the more confusion, and the less of execution.

After all, what is the United States but a huge corporation of people, factories, firms, banks, railroads, business establishments, with homes, schools, and everything that goes to make up modern society?

Why shouldn't that society hire someone to manage its affairs for it? It can't do it itself. That has been proven beyond a shadow of a doubt.

It has been proven, many times, that city manager form of municipal government is a vast improvement on the old order of things.

It that's true, why can't the same principle be applied to states, and even beyond that, to the nation?

A lot of folks say, "but Russia doesn't represent dictatorship. That's communism; that's rule by the people." Shucks!

And a lot of folks say, "but Italy and Germany don't represent dictatorship. That's facism; that's rule by the more powerful." Shucks!

It's all the same; the difference lies only in the method of application.

Take the matter of the present banking situation. We predicted recently an overwhelming growing sentiment in favor of the Nationalization of our entire banking system.

We believe it will come about. We understand President Roosevelt has intimated strongly if nothing else could be done to straighten the matter out, he would start a United States banking system with each postoffice as the local cog in the machine.

The people are demanding more than anything else, guarantee of deposits. When a chap puts a hundred dollars into a bank, he wants to know for a certainty that he can take it out again, when he has to.

Far back in the past, you might be interested to know, banks were started originally as warehouses, where folks put away their money and valuables for safe keeping.

In fact, strange as it may seem, one had to rent or hire space in the warehouse or bank, and pay for it.

Then those owing the warehouse or banks, seeing all the money in storage, decided it might be a good thing to lend it out, and derive interest upon it.

Gradually this custom became a law, and lending of depositors' the money was legalized. But never, through all the ages, have depositors forgotten the sense of security they want attached to their deposits.

EARLY BIRDS ROLL NUTS TO NAB EARLY WORMS

GERBER, Mar. 23—(UP)—Local birds, that is, members of the brown thrush family, are becomming expert nut rollers.

Local lawns recently have been the scenes of som espirited contest of the apparently athletically inclined birds.

It isn't so simple as that, however. It seems the nuts provide the shelter for fine, large worms, and the birds have discovered the fact—th eearly birds, of course.

Ladies Aid Hears Enjoyable Program

Both circles of the Ladies Aid of the Methodist church met at the church parlors Wednesday afternoon.

The president, Mrs. Bert Moody, opened the meeting. After the business session was over the following program was rendered: Solo, Mrs. Hawke; recitation, Mrs. Gibson; reading, Mrs. Moore; duet, Mrs. Hawke and Mrs. Douglass; playlet, with the following ladies taking part: Mrs. Bert Moody, Mrs. Ray Murchie, Mrs. William Johnson, Mrs. Moomey, and Mrs. Pharris.

After the program all assembled at tables prettily decorated with jonquils and enjoyed dainty refreshments.

There were 50 members present.

There will be special services at the Methodist church next Sunday morning and Mrs. Hawke will sing a special number.

Friday afternoon plans are for 25 delegates of the local missionary society will meet with Grass Valley missionary society in entertaining the following ladies, Mrs. Rose, conference president, of Sonora; Mrs. Lawson, district president of Roseville; Mrs. Edgewell, district treasurer, of Penryn.

District Deputy Visits O. E. S. Chapter

Evangeline Chapter, No. 9, O. E. S., was visited officially Tuesday evening by their District Deputy Mrs. Ellen Cayot of Dutch Flat.

She found the chapter in excellent condition and praised the officers in their faithful and painstaking work.

A turkey dinner was enjoyed at the National hotel by the visiting deputy and several members.

Mrs. W. A. Sharp to Remove to Camino

Mrs. W. A. Sharp and little daughter, Mary, are to leave shortly for Comino where she plans to go into business.

As soon as Mr. Sharp gets his business straightened up he will also to to Comino to reside.

It is with regret that we see Mr. and Mrs. Sharp leave our community, but best wishes from their many friends are extended to them in their new venture.

Mr. Sharp has sold a number of mining properties here and he has been one of the strong boosters for the district, bringing many worthwhile mining men to this section.

LOOK BOYS!

EVERY BOY HAS A CHANCE TO WIN A FREE ROUND TRIP TO OAKLAND TO SEE U. S. S. CONSTITUTION

Oh Boy! Won't it be fun to go to Oakland and board that gallant old ship, the U. S. S. Constitution . . . go through her from stem to stern . . . listen to the tales of the guides who know her grim and valiant history . . . see with your own eyes what kind of ship it was that whipped the African Pirates—put the British Frigate Guerriere to rout, sank another man-o-war and captured two others in 1812? Won't it thrill you to walk those famed decks yourself and see why her hull turned back the British shot and won her the name "Old Ironsides?"

You can go. THE NEVADA CITY NUGGET will pay your fare there and back if you enter the Old Ironsides Contest starting today and secure two new paid yearly subscriptions to the Nugget at $2.00 a year each or 4 half yearly subscriptions at $1.00 each. Simply see friends or neighbbors who have not been taking the Nugget for the past year and bring in their subscriptions. That's all you have to do. We'll enter your name in the contest, answer all your questions. Start right away so that you will be sure of having plenty of time to get your subscribers. Read the Contest Rules in this ad. Come in anytime from now on and sign up. On to OAKLAND. COME ON— LET'S GO!

PHONE 36 for information

GET INTO THE CONTEST NOW!
200 BOYS MAY WIN
WHY NOT YOU?

HERE ARE THE RULES OF THE CONTEST

1. Campaign begins today March 20, and closes Friday, March 31 at 12 o'clock noon. To be counted, all subscriptions must be in the office of the Nugget by 12 o'clock on March 31.

2. One round trip ticket to Oakland and return, good on the days and trains specified by Narrow Gauge Railway for the Old Ironsides excursion will be awarded for each two, one year subscriptions to the Nugget secured by the contestant from new subscribers, or four half year subscriptions.

3. A new subscriber is one who has not been a subscriber to the Nugget since March 19, 1933.

4. Any boy 12 to 16 years of age, who is known to us to be honest and reliable; and who lives in Nevada City, Grass Valley, French Corral, Camptonville, North San Juan, North Bloomfield, Gold Flat, or Alleghaney may enter.

5. Each contestant must report at the Nugget office before entering the contest.

6. Every boy entering this contest must obtain a statement from parents that he will be accompanied by them on the trip or obtain written permission from parents to go upon the trip.

7. Subscriptions from any resident of Nevada County will win a roundtrip ticket.

8. Tickets will be awarded as soon as available. Said tickets are those to be regularly sold by the Narrow Gauge good for the Old Ironsides excursion, and are good for round trip transportation between Nevada City and Oakland, subject to regulations of the railroad company in connection therewith.

The Nevada City Nugget's free trip to "Old Ironsides"
